No: 62 Dated 2-5-1904

Office of the Chairman of the Board of Trustees,
for the Mysore City Improvements,
Mysore, Dated 29th April 1904,

From

D.Sitaram Rao Esq.,
Chairman of the Board of Trustees,
Mysore City Improvement.

To

L.Anathasami Rao Esq.,B.A.,
Secretary to the Govt. of H.H. the Maharajah of
Mysore, General and Revenue Departments.

Sir,

I have the honor to submit for consideration and orders of the Government, a project for the formation of new Doddaholagere on the spur to the south of Veeranna's Weavers Lines, as approved by Government in their Pro:No. 3335-6/L.F.36-02, dated Bangalore, 3rd March 1904. It is pro-posed to acquire 139 acres, 26 guntas, assessed at Rs. 120-12-0, culturable area at Rupees one hundred an acre, and locate the new hamlet. As shewn on the accompanying plan, the whole area is divided into building sites, by suitably aligning the roads with due regard to the cardinal points of construction and drainage. Sufficient space is left between Weaver Lines and the new village (360ft. by 1160ft.) to separate it from the existing buildings. Sites for the building of a Temple , Market, School, and Police Station are set apart at convenient spots for construction when funds become available.

2. The enclosed estimate provides for opening out roads and forming them, to the extent of Rs.8,858/- in which a provision of Rs.1,000/ is inserted for planting a belt of trees round the village and at the spots intended for general purposes. The building of drains on the lines adopted for the Town and other adjuncts cost Rs.24,448/-. This item

es

Latrines, Rs.1074/-, Lamp Posts, Rs1,500/. The Estimate as abstracted below, comes up to Rs. 47,271/-

(1).	Compensation	Rs.13,965/
(2).	Roads &c., ...	Rs. 8,858/
(3).	Drainage and Sanitary requirements	Rs.24,448/
	Total ...	Rs.47,271/

3. If value is set upon every building site to be given instead of those that would be taken at the present Doddaholagere at Chettanahalli Extension @ annas 2 per Sq.Yd for 618 house sites, there will be savings of Rs.12,992/- as noted in the margin, very near the amount to be paid for acquiring 139 acres and 26 guntas

	No.	Rs.	
t Class.	56	× 25 =	Rs.1,400
d Class.	552	× 21 =	Rs11,592
Total...			Rs12,992

The site is in every way eligible for building purposes averaging in level from R.L.2425 to 2475. Water supply can be made available also as the cill level of the Cauvery Pure water tank is R.L.2519.00. Even providing 40ft. for loss of head due to lead and friction &c., water can be delivered at R.L.2479. No provision is made in this estimate for the laying of pipes &c., and this work will perhaps have to be undertaken either by the Board or by the Municipality under a separate Estimate.

5. As it is desirable, as represented in another communication on the project for housing the Palace servants, to remove the Doddahalagere from its present site, I solicit early sanction to the enclosed project for rendering the ground fit for starting the Buildings by the displaced Holaers, no sooner compensation is settled, so that they may remove into the new houses, in time, to start the construction of houses for the palace servants before the next plague season sets in.

I have the honor to be,
Sir,
Your most obedient servant,

Chairman.

Office Draft (Docket)

Mysore Government,
General & Revenue Secretariat.

To The Chairman of the Board of Trustees for the Improvement of the City of Mysore

Date of passing the draft 7/5/04
Date of despatch 7/5/04

Regd. No. 4262
File No. & date (if any) 2.106-05

No. of Encls. (As noted on the 'From' letter).

His letter No 62 dated the 29th April 1904 submitting a project for the formation of a new Doddahalagere on the Spur to the South of Vernonia Weavers Lines.

With reference to the above I have the honour to observe that the project is estimated by the Chairman to cost Rs 47271 the details work up to Rs 1,19,119 as shown in the margin, the undermentioned error in the estimate for cutting, forming and gravelling roads in the Doddahalagere Chiefly accounting for the large difference

	Amount as entered in the Chairman's office	Amount as per details given in the estimate
	Rs	Rs
Compensation	13,965	13,965
Formation roads	8858	10,737
Drainage	24,448	24,447
Total	47271	1,19,119

will be noted, as to matter on the reverse the Estimate given in the claim by the Chairman made his Rs 12,5 [illegible]

The correct quantity of
footing and Gravelling roads
as per dimensions given under
'Streets' viz. 9×1060×30 is
2,86,200 whereas the same is
given as 28,620 Sq yds. Effect.
It should be explained whether
the mistake is under dimen-
sions or under quantity
2. In the detailed Drawing &
estimate four latrines are entered, while in the abstract two only
~~whereas in the abstract latrines~~ Long 2 to Jamin
~~the cost has been entered~~
~~for only two latrines~~ It should therefore be explained which of these
~~in error~~ whether two latrines figures is correct or,
are not sufficient and if not
whether the cost of the remaining
two should not be added to
the total cost
3. The other minor corrections
are noted in the estimate
which are herewith returned
for careful revision and
early resubmission with a report
as to the present water convenience of the
locality.

No 66.

Office of the Chairman of the Board of Trustees
for the Mysore City Improvement,
Dated Mysore, 10th May 1904.

From,

D.Sitarama Rao., Esq.,
Chairman of the Board of Trustees
for the Mysore City Improvement.

To,

L.Anantasami Rao, Esq., B.A.,
Secretary to the Government of His Highness the
Maharaja of Mysore, Gl & Rev Departments

Sir,

With reference to Secretary's No.4262 L.F.106 - 03 dated 7 th May 1904, about certain arithmetical errors observed in the project for the formation of a new Doddaholagere, on the spur to the south of Veeranna's Weavers' lines, I have the honor to submit that the quantity under forming and gravelling roads ought to be 2,86,200 square feet, and not 28,620 square feet, a cypher having been omitted in copying, through oversight.

2. Originally four latrines were intended to be constructed, but the provision was cut short to two in the abstract and the totals of cost were worked out. In the details also the quantity should have been altered to two instead of retaining the No.4.

3. Water is now available at Veeranna's Weavers' lines situated to the north of the extension about 400 feet from the proposed site for the new Doddaholagere. The project as corrected is submitted for orders.

I have the honor to be
Sir,
Your most obedient servant,

Chairman.
